

## Considerations concerning the MXNB website

MXNB is a digital token that operates on each of the blockchains referred to on the Site [to be included] (collectively, as of whichever date they are published on the Site, the "Blockchains compatible with MXNB" and each of these "MXNB" digital tokens). Similarly and over time, the issuer of MXNB (the "Issuer") may adopt additional MXNB-compatible Blockchains and report them by means other than the Site.

MXNB is a virtual asset that is linked to the value of the Mexican peso and is backed by that currency. The Mexican peso funds that serve as backing are held by the MXNB Issuer in accounts within regulated financial institutions. MXNB is not designed to generate yields for holders, increase in value, or accrue financial benefits for the MXNB holder. MXNB does not generate any type of interests or yields for MXNB holders and only represents the right of eligible entities to redeem MXNB in exchange for MXN. The Site is for informational purposes only and does not constitute an offer to sell or a solicitation to buy any asset. In this sense, the issuance of MXNB is subject to compliance with the eligibility criteria determined by the Issuer. The issuance and redemption of MXNB by the Issuer is carried out only with those entities that have met the eligibility criteria. Please note that the convertibility of this asset is subject to the criteria established on the Site, white paper, and other MXNB-related documents. The characteristics of this asset may be subject to changes without prior notice.

It is advised to conduct a comprehensive analysis and seek advice from qualified financial advisors before making any decisions about MXNB. Any actions based on the information found on the Site, white paper, or any other document related to MXNB are taken at your own risk. The Issuer does not hold responsibility for any losses, damages, or consequences that may arise from the interpretation or use of the information in this document.

Only the Issuer can tokenize and redeem MXNB. The Issuer does not transact or trade with the MXNB token. Any reference made on this Site regarding the exchange of MXNB should be understood as the trading carried out by the distributors of MXNB.

This Site does not constitute any type of offer or proposal to buy or sell, it merely aims to illustrate the features of MXNB. In this regard, and unless expressly mentioned, any reference to such features on this Site does not refer to products offered by the MXNB Issuer. Any reference made on the Site to protocols, products, or services is meant for informational purposes only and does not constitute an endorsement or recommendation by the MXNB issuer. The security, reliability or effectiveness of these protocols is not guaranteed, as they are open and decentralized protocols. The issuer shall not be liable for any failures, incidents, interruptions, delays, or additional costs arising from the blockchain or protocols on which the MXNB operates. Users are advised to conduct their own research and consult with trusted professionals before using any of the mentioned protocols, products, or services. The entity assumes no responsibility for any decisions or actions taken on the basis of the information on the page or whitepaper.

The acts of holding and using of MXNB are subject to the laws, regulations, and rules of any applicable governmental or regulatory authority.

Except as expressly required by law, the MXNB Issuer constitutes no representation or warranty, and expressly rejects all liabilities regarding representation or warranty, whether explicit or implicit, of any kind with respect to MXNB, including, but not limited to, warranties of merchantability, fitness for a particular purposes, title or non-infringement, and in general any warranties arising from the use of MXNB.

The MXNB Issuer does not warrant that the MXNB Services will be available without interruption, in a timely, secure or error-free manner, nor that issues will be amended, or that the MXNB Services are immune to errors, viruses or malware. Use of the services is at the purchaser's own risk.

The Issuer of MXNB shall not be liable for any direct, indirect, incidental, special, punitive or consequential damages of any kind, including, but not limited to, loss of revenue, data, profits, opportunity or goodwill, arising out of or in connection with the use of MXNB, as the use of MXNB is at the sole risk of the purchaser.
